Industry: [Software](#)

Mediachase announces a special summer offer: since June 17 the company cuts off the price of all Instant Business Network 4.7 packages by 15%. The offer is valid discount is from 17 to 27 of June, 2009.

Instant Business Network (IBN) is [web-based collaborative software](#), developed using .NET. The product consists of a web portal and a set of client tools that solve together a wide range of business tasks including project collaboration and management, incident management as well as time-tracking and reporting. IBN allows co-workers, team members, customers, and partners of a company to effectively collaborate and share information in the own online company's working portal.

Instant Business Network is [agile project management software](#). It suits to enterprises, small business and project management teams and groups IBN PM allows to organize simple online project management. With IBN Project Management system you can easily create project team including your business colleagues, partners and freelancers and organize online management process.

With IBN collaborative system you have a complete set of project management collaboration tools such as creating tasks, uploading files, sharing calendars, following discussions, creating custom lists and more. After initial training and guidance from experienced IBN PM Staff, the IBN Project Collaboration portal becomes an invaluable resource to conduct your daily jobs that everyone in your company or organization can benefit from.

You will no longer have to exchange emails back and forth to share Microsoft Excel or Word documents with our Project Management Collaboration Software package. Rather, within your IBN portal, you can create separate projects, each with their own repository to store files in. Anyone with access to the project can upload, download and open files from the repository. With version control built-in, the IBN project collaboration software will make note of the version of the document that was upload into the repository. This way, the system streamlines your work processes and eliminates unnecessary email clutter and scattered files.

June is perfect time to start your project office! You can buy full packaged project management software for your 15 users at only \$1232! If you prefer hosted solutions with monthly payment, you can choose IBN SaaS at \$6.97 per user per month.

To use the discount one just needs to enter code "IBNJuneDiscount" in the corresponding field after adding an IBN package to his cart:<https://secure.avangate.com/order/product.php?PRODS=1982543&QTY=1&LANG=en>
