

Miami Cosmetic Dentist Announces the "Straight Teeth for Summer" Invisalign Special

Released on: June 8, 2009, 6:35 am
Author: [Miami Cosmetic Dentist](#)
Industry: [Healthcare](#)

Smile South Florida Cosmetic Dentistry is offering a limited time summer Invisalign special to both new and current patients.

Many patients want to have the benefits of a beautiful straight smile, but do not want to be inconvenienced with wearing unsightly metal braces for several years. This is where the Invisalign method can make a difference. [Invisalign](#) is an alternative to traditional braces, where the patient uses a series of clear aligners that are custom molded to fit the patient's teeth. The aligners are gradually repositioned over time to adjust the smile and give the desired result.

In contrast to traditional braces that are permanently fixed into the mouth during treatment, Invisalign braces are removable during eating and to brush the teeth. Heather, Marketing & Guest Services Coordinator for the [South Florida Dentist](#), and current Invisalign patient said, **"I wanted to have straight teeth for my upcoming wedding, but there was no way that I would be caught wearing metal braces for several years. This is my chance to have straight teeth in a short amount of time without anyone knowing that I am even wearing braces."**

Currently, Smile South Florida is offering a **25% off regular price special** on Invisalign treatment that will run until September 1st, 2009. This offers a huge savings to the patient, especially since Invisalign is typically not covered by many dental insurance plans.

Dr. Kenneth Anenberg is the premier [Fort Lauderdale Cosmetic Dentist](#) at Smile South Florida, who specializes in the Invisalign treatment for patients. When discussing with Dr. Anenberg the reasoning for this discounted special, Dr. Anenberg mentioned that **“there are so many patients who really need help, but cannot regularly afford this treatment.... This is their opportunity to get Invisalign.”**
