New York, NY – January 12, 2010 – Speedy Solutions announces new lower pricing and increased functionality for its flagship product Speedy Organizer a windows based Document Management System. The new pricing will be a one time annual fee of $94.00 a significant reduction from previous pricing options. In addition, all maintenance and future enhancements for the product will be included.

Make your business more competitive, more cost effective and improve client satisfaction and overall communication

Speedy Solutions is focusing a significant marketing effort for it's flagship product Speedy Organizer – Document Management Software to both home businesses and smaller businesses. This effort is primarily being driven by the new significantly reduced pricing of $94 and the ability to purchase Speedy Organizer directly from the Speedy Solutions web-site www.speedyscan.biz with the fulfillment being provided by Amazon. The product can be purchased stand alone to support an already purchased, scanner, copier or multi function printer (MFP) or in conjunction with any new scanner, copier or (MFP).

Speedy Organizer has also been enhanced to provide a number of new features and functions that have been requested by our clients. These features represent a significant improvement over previous releases and offer a number of improvements in the way our clients can more easily and efficiently retrieve documents. The new features are as follows:-

Autofill , Keyword Searching, Full Text Searching, Advanced Relational Searching , Version Control , Document Reporting, Pull specific document lists from database with "and/or" searching supported, SQL Database , Document Routing , Full Audit Trails and Logs , Data Import from Excel , Automated Import from Kodak, Kofax, Captiva and Digitech, PDF document password protection, annotation redaction, stick note , Document Destruction Date , Multi Department Multi Document Database Support , User Security Control.

All of these new features have been added to this next release of both Speedy Organizer and Speedy Organizer/PLUS. More importantly, all of our clients will be receiving this new release in the form of an update at no additional cost to them. Clients who currently use Speedy Organizer will receive the new release of Speedy Organizer and clients who currently use Speedy Organizer with the network option will automatically be upgraded to Speedy Organizer/PLUS. The new releases will be provided to our clients during this coming year 2010 based upon our client's specific needs and time schedules. At this time we fully expect that all existing releases of Speedy Organizer will continue to be fully supported until such time as the entire client base has moved to these new enhanced products.

In addition to the new pricing and new enhancements Speedy Solutions will be moving to it's new web-site effective January 11 th 2010, www.speedyscan.biz . Complete information about our entire product line is available and many useful new additions have been made to better inform our clients and potential clients about the

Speedy Solutions products, services and the concept of operating what we like to term a "Practical Paperless Office".

Bryan Shepherd, Vice President of Business Development says "This represents a significant change for us. We are going to offer Speedy Organizer for just $94 via the Internet. This annual fee will include all maintenance and future enhancements for a registered user of Speedy Organizer. Additionally, Mr. Shepherd emphasized, "Home and small businesses are struggling in this economic downturn and the even slower recovery. Using our product will dramatically improve the efficiency, productivity and profitability of any company, while improving its own clients overall satisfaction and an overall improvement in communication. Just imagine being able to get critical or urgent documents to any of your clients or suppliers in a matter of minutes rather than in hours and days. Now is clearly the time for home and small businesses to be investing in the improvement of their overall profitability and efficiency for the future"

Speedy Organizer works with all types of scanner, copier or MFP and automatically catalogs any type of paper document being scanned, or digital documents already stored. Once cataloged the documents can then be easily and efficiently retrieved in a matter of seconds. Speedy Organizer will also ensure that all documents are stored securely and will never be lost.

Speedy Solutions has also completely re-vamped its website www.speedyscan.biz to provide better information on the whole concept of digital document management and what we like to call the "Practical Paperless Office". More importantly, the website provides significantly more information about Speedy Organizer and its features and benefits. Thus enabling businesses to make an informed decision as to the best product to use to improve the efficiency, security and management of its documents and information thru digital document management.

Speedy Organizer significantly enhances the way businesses do business while improving it's own clients overall satisfaction and service. Whether it's small or large, businesses become more efficient and secure in their document management environment when using Speedy Organizer to store and manage important documents. Speedy Organizer automatically catalogs, indexes, and stores any document with any format for safe storage and quick retrieval in a matter of seconds. Once retrieved, documents can be shared and distributed globally using email, print, or fax. Speedy Organizer provides users

with simplicity by utilizing powerful technology and the most advanced search data design that is used by top Fortune 500 companies.

Speedy Solutions is committed to provide award-winning products, customer support, and the reliability needed to keep corporate documents safe and secure. Associations with Speedy Solutions include Microsoft, Adobe, Fujitsu, Kodak, Canon, Panasonic, and Sharp. Speedy Solutions has won software awards including the coveted NAPO Best Business Product and LISA Software Awards 2008. In addition, Speedy Solutions has been nominated for the Wall Street Journal Innovation Award and Microsoft's Best ISV Product.
