Industry: [Small Business](#)

Halfpricesoft.com recently released [ezW2 2009](#), the easy-to-use W2 1099 filing and printing software for small businesses. Best of all, anyone interested in trying ezW2 2009 can do so totally risk free by downloading the full-functional W2 1099 software for free. ezW2 1099 W2 software was specifically engineered with non-accountant business owners in mind. Its intuitive interfaces allow the user to get started on filing and printing Forms W2, W3, 1099 and 1096 without the long learning curve typically associated with financial software.

New to the 1099 W2 software 2009 edition is the ability to print 2 sets of W2 or 1099 data on one red form sheet - the top half of the sheet for one employee and the bottom for another employee. This feature can cut the employer's cost for red form sheets in half. Of course it also includes the latest versions of Form W2, W3, 1099 and 1096 for compliance with the Internal

Revenue Service and Social Security Administration.

Business owners and managers new to ezW2 can try the w2 1099 software risk free, without cost or obligation to ensure they like the software and that it meets their needs. ezW2 software can be downloaded for free at http://www.halfpricesoft.com/w2_software.asp. This is not a demo or trial version with limitations. It is the complete software with all features and no time limit. However, a license key is required to print documents without a "DEMO" or "SAMPLE" watermark across each page. The license key can be purchased for just \$39.

To make sampling ezW2 2009 even easier, the w2 1099 software download package includes a sample database. Instead of wasting time entering data, small business owners and managers can upload the sample database and begin testing features and functions immediately after installing which saves time and money.

ezW2 software saves money for small businesses in 6 key ways:

1. ezW2 2009 can print 2 forms on one sheet: using half as many expensive red form sheets
2. ezW2 2009 eliminates need for W2 Copy A and W3 by laser printing Social Security Administration-approved substitutes on plain white paper
3. Users save valuable time by eliminating the learning curve. ezW2 2009 is designed to be simple and intuitive, allowing users to get started right away
4. Users save even more time by saving form data for later use and modification
5. Users save valuable time by importing employee data and contractor data from csv file. There is no need for users to enter the data one by one.
6. At \$39, ezW2 is among the lowest priced, full-featured software available for small businesses.

Although designed with the non-accountant in mind, ezW2 2009 supports an unlimited number of businesses, so it's ideal for accountants who need a simple solution to [filing](#) W2's, 1099's, W3's

and 1096's for their clients. This feature also makes the software ideal for entrepreneurs with multiple businesses.

ezW2 2009 is developed and distributed by Halfpricesoft.com, a company dedicated to making tax and financial software that is affordable and easy to use for small businesses.

"We found most software on the market were too complex and too expensive for small business owners," said Halfpricesoft.com founder Dr. Ge. "We believe small business owners should focus their time and energy on running their businesses, not trying to figure out how to run the software. We wanted to build something that was user friendly, super simple, affordable & totally risk free."

Other products available from Halfpricesoft.com include payroll software, check writing software, barcode printing software, and time sheet software. The web site also contains several resources to help small businesses with their accounting and tax reporting needs.
