Winooski, VT -- May 14, 2010 -- CPA Site Solutions, a provider of websites for CPAs and accountants, has announced a one-day giveaway of its QuickBooks online backup solution on June 1, 2010. CPA Site Solutions will give away online backup service for QuickBooks files to the first 100 accounting firms and financial professionals to request it on June 1. The promotion kicks off a new service offered by CPA Site Solutions: The Protector, an online backup solution.

"Backing up your data online is critical for financial professionals," comments Brian O'Connell, President of CPA Site Solutions. "Online backup is much more secure than traditional backup methods."

The first 100 firms to respond not only get their QuickBooks files backed up, but they can also offer this same QuickBooks backup service to their clients. Both accountants and their clients can keep the service, without charge, for 3 years.

Additionally, CPA Site Solutions is giving away the QuickBooks backup service to each of its nearly 4,000 accounting clients.

O'Connell says, "We're delighted to give away this service to help accountants and financial professionals."

The Protector: Easy and Secure

CPA Site Solutions's online backup solution, The Protector, installs with a few clicks in less than a minute. It's fully automated - once installed, it runs on its own. Files are stored off-site, fully protected.

Data is encrypted with the same high-level security algorithm used by banks and government agencies. No one but the accountant has access to the files.

"Many small business owners aren't backing up their files because it's too complicated and time consuming. The Protector is a simple solution to that problem," says O'Connell.

The first 100 accountants to respond on June 1, 2010 will receive the free service to back up their QuickBooks files. They can also choose anytime to buy The Protector, which will back up all their files, up to 50 GB, for \$29.95/month. An additional 25 GB of space is available for \$9.95/month.

Accountants and financial professionals who want to take advantage of this offer can visit <http://www.cpasitesolutions.com/youget/cpa-website-tools/free-qb-backup-offer.php> on June 1, 2010. Registration begins at 8:00 AM EST.

About CPA Site Solutions provides websites for more than 4,000 CPA and Accounting firms. They offer ready-to-use websites and hosting, tools, custom website design, and internet marketing support throughout the United States. Basic service includes a 60-day free trial, Site and Email hosting, free phone support, 58 interactive financial calculators, 3,000 pages of financial guides, a monthly Email Newsletter, a Secure File Exchange, an easy point-and-click web page editor, and much more.
